

Bird Migration

February's Featured Presentation

Grade Level Pre-K - 2nd

We will read a book about bird migration and talk about bird songs. Student will use 24 birds to hear the sound that the bird makes and talk about the bird.

K—Living things use body parts to seek resources. Living things have certain characteristics. Weather can be measured in seasonal patterns.

1st—Living organisms can only survive in environments that support their needs. Living things have basic needs and seasonal changes impact these needs.

2nd—Living things interact with their physical environment.
