

Incredible Journey

September Featured Presentation

Grade Level 1-4

Take a journey as a water drop. Younger students will make a bracelet while playing a game as a water drop. Older students will travel as a water drop in the game while discussing where they have been and learn about watersheds.

Academic Content Standards Addressed:

1st Grade—physical properties of water change and sun is principle source of energy.

2nd Grade—atmosphere is made up of air. Water is present in air.

3rd Grade—Water is a nonliving resource, renewable and non-renewable resources.

4th Grade - Earth's surface has specific characteristics and land forms that can be identified.
